

**For Immediate Release**

**InfoTech Enterprises, Inc. changes its corporate name to Avineon, Inc.**

**Alexandria, Virginia (June 5, 2002)** - InfoTech Enterprises, Inc., a leading information technology and geospatial solutions company serving government and industry, announced today that the firm has changed its name to **Avineon, Inc.** Over the past year, the Company has launched new business thrusts, expanded its global presence, and introduced unique performance measurement initiatives into the corporate culture. The new brand identity was developed to reinforce and promote the innovative approaches that Avineon is taking to prepare for future growth.

The new identity also provides an opportunity for the Company to consolidate all their operations under the Avineon name. The Company recently moved its USA headquarters to a larger facility in Alexandria, Virginia in order to accommodate growth, and opened new offices in Huntsville, Alabama, Chicago, Illinois, and Juno Beach, Florida. Avineon India Private Ltd., established in 1998, is a software development and data conversion facility in Hyderabad, India.

Karlu Rambhala, Avineon's President & CEO, noted, "Our re-branding is part of an overall strategy to position Avineon for growth in our current markets and support the launch of new technology initiatives. Our innovative technology solutions, unparalleled customer service, and internal performance systems that empower each and every employee are what set us apart from our competitors. This approach will lay the foundation for successful growth in the 21<sup>st</sup> century."

Avineon (formerly InfoTech Enterprises, Inc.) celebrated its tenth anniversary in April. Over the past decade, the Company built its reputation by providing a broad range of technical services to clients that include the Potomac Electric Power Company, U.S. Department of Treasury, U.S. Social Security Administration, Naval Surface Warfare Center, AT&T, and others. Avineon is an ISO 9001:2000 Registered Company and rated "Excellent" and "Exceeds Customer Expectations" by D&B. Company recognition has included the Washington Technology Fast 50, Inc. 500, Virginia Technology Innovation, Virginia Fantastic 50, and Deloitte & Touche Fast 50 awards.
