Avineon Team Wins TIPSS-3 Contract

Alexandria, Va. – November 8, 2005 – Avineon, Inc. (Avineon), a provider of IT, engineering, geospatial and program management services, was awarded a Treasury Information Processing Support Services-3 (TIPSS-3) contract to provide information systems support to the Department of the Treasury and all of its bureaus. The Internal Revenue Service (IRS) will administer this five-year Indefinite Delivery/Indefinite Quantity (ID/IQ) contract, which has an estimated value of more than \$495 million.

Under the contract, the Avineon team will provide expertise in all three TIPSS-3 functional areas, including Information Systems Services, System Security Services, and Strategic Business Services. Avineon is one of six small businesses awarded a TIPSS-3 contract and one of only two small businesses qualified to offer services in all three functional areas.

Avineon has provided high-quality IT services to the Department of Treasury since 1999, delivering full project life cycle support including legacy system migration, web-based development, and a range of information and network security functions. For TIPSS-3, Avineon adds a team of experienced subcontractors that provide a wide range of technical capabilities, all delivered via an integrated team approach aligned with CMMI Level 3 best practices.

“Avineon’s ability to deliver consistent, high-quality IT development and security services to our Treasury client since 1999 was critical to our successful pursuit of the TIPSS-3 award, “ said Karlu Rambhala, Avineon President and CEO. “By adding team members that we have worked with successfully in the past, and that have demonstrated a

consistent commitment to quality delivery in the federal space, we are well positioned to help our Treasury client meet their mission objectives in all TIPSS-3 functional areas.”

Avineon’s winning team consists of a core of fourteen subcontractors including Abacus Technology Corporation; Advanced Resource Technologies, Inc.; Advanced Software Systems, Inc.; Base Technologies, Inc.; BEA Systems, Inc.; DSD Laboratories, Inc.; Global Network Systems, Inc.; IntelliDyne, LLC; IT Solutions, LLC; The MIL Corporation; Mindbank Consulting Group, Inc.; NCR Corporation (NCR); Praxis Engineering Technologies, Inc.; and Symago, LLC.

“With the excellent track record of our team, we are looking forward to starting work on TIPSS-3,” said Mr. Rambhala. “We are confident that we will be successful competing for, winning, and most importantly delivering services under TIPSS-3. Our commitment to quality and customer satisfaction will bring us significant work on this contract.”

About Avineon

Avineon is a diversified high technology company that provides Information Technology (IT), engineering, geospatial and program management services. Headquartered in Alexandria, Virginia, Avineon employs over 140 staff including offices in Alabama and Florida, and with affiliate companies located overseas employs more 350 total staff.
