

# Geospatial Data Services

## MAXIMIZING BUSINESS RESULTS

AN AVINEON GIS SOLUTION

### GIS DATA CONVERSION, MIGRATION & MAINTENANCE SUPPORT

SW-CMMI Level 3, ISO 9001:2000

#### SERVICE BENEFITS

- Professionally delivered on-site or remote services.
- Proven Quality Oriented Approach
- 100% Project Success Rate
- One Year Unconditional Quality Guarantee
- Customer satisfaction is our prime focus
- Domain expertise in utilities, telecom, defense, homeland security, agriculture and other markets.
- Focus on implementation and execution of strategies key to project success.
- Technology experience across multiple software platforms.
- We team with you to guarantee your success.

#### THE CHALLENGE

The success of a spatially-enabled information system is directly related to the quality of the data it contains. Avineon, a company designed around operational excellence and quality, recognizes the crucial importance of data and incorporates a state-of-the-art quality management system to ensure that our clients receive only the highest quality products.

GIS data conversion, migration and maintenance are service area's in which Avineon has specialized since the company was founded in 1992. Since then, Avineon has a 100% success rate converting and migrating data in all major GIS/CAD and related applications including AutoDesk, Bentley, ESRI, GE Smallworld, Intergraph, MapInfo and Oracle. We also have strategic affiliations and business partnerships with AM/FM/GIS industry leaders such as ESRI, GE Smallworld, Intergraph, and Miner & Miner (ArcFM).

Avineon's combined knowledge in the IT and geospatial areas has been effectively applied to helping clients manage and implement GIS projects. Our unique approach balances existing investments in GIS (people, processes, and tools) with new technology integration focused on making GIS pay off in both efficiency and user satisfaction.

#### AVINEON'S SOLUTION APPROACH

Avineon offers a full range of geospatial data services including the following:

- Database Design
- Data Modeling
- Data Conversion
- Data Migration
- Record Maintenance

Avineon's experience with modern, advanced development environments and geospatial applications allows us to provide our clients with professional support at all stages of the data conversion, migration and maintenance processes. Avineon's client list includes over 100 satisfied customers with successful projects and a number of long-term partner relationships. Our staff includes subject matter experts on many different types of data including utility (electric, gas, telephone, cable TV/FM, urban heating/cooling, water/sewer/wastewater), land base (street centerlines, parcels, topography, etc.) and environmental (vegetation, benthic habitat, land cover/land use, etc.).

The key to our support lies in our people. Avineon's professional staff is dedicated to advancing the use of geospatial technology. Over 800 experienced IT/GIS professionals are ready to solve your needs.

## Geospatial Data Services

### WHY CHOOSE AVINEON AS YOUR SERVICE PROVIDER?

#### Experience

- Aquasambre (B)
- British Telecom (UK)
- Colt Telecom (F)
- CPCU (F)
- Essent (NL)
- France Telecom (F)
- Gaz de France (F)
- Marie de Paris (F)

*100% project completion success rate*

#### Platforms

- AutoDesk
- Bentley
- ESRI
- GE Smallworld
- Intergraph
- MapInfo
- Oracle
- Star/APIC
- AED SICAD

#### Warranty

- *One year Performance Guarantee* on all products and services

### GEOSPATIAL DATA SERVICES – BENEFITS

**Proven Quality Oriented Approach** – Avineon’s proven state-of-the-art quality management system has been refined for more than 14 years and has a track record of 100% success. GIS data conversion, migration and maintenance services have been among our primary lines of business since the company’s inception in 1992 and our staff has decades of collective experience.

**Customer Satisfaction** – Customer satisfaction is our prime focus. We are committed to delivering quality services on time and at a competitive price.

**Excellent Value** – Avineon’s corporate organization enables us to deliver an ideal combination of customer service and cost savings. We offer our complete ranges of services from our local country offices and the option of lower cost offshore support.

**Capacity** – Avineon employs over 1000 well-trained staff members, all of whom are dedicated to the performance of GIS-and IT-related services, and our existing facilities have capacity for substantially more staff. Avineon has a large and flexible offshore capacity in our wholly owned subsidiary in Hyderabad – India.

**Communications** – It has long been recognized that a key element to the success of any conversion/migration project is a strong partnership between the client and its service provider. Avineon feels that open communications are the foundation of such a relationship and uses the information generated by our MIS as the basis for detailed progress reports to its customers. Furthermore, we supplement formal reporting with on-site visits and daily communications via telephone and electronic mail. In addition we provide local support and tight project management.

**Experience** – Success in similar projects is the primary evidence of a vendor’s ability to fulfil the requirements of a project. Avineon has achieved such successes with over 100 customers.

**Information Security** – Avineon is a pioneer in incorporating the principles of the information security standard ISO27001. Avineon is certified for BS7799 and ISO27001. This guarantees the customer the full confidentiality and security of all information and data provided to our company.
